

OUR VISION

Effect Change - To provide the highest quality client-centred allied health interventions and supports that promote independence.

Our clients are central to our existence and ongoing success. We must maintain our integrity through the provision of client-focused, flexible and compassionate supports.

Our people are vital to WHR Allied Health's success in delivering our vision. Our people must share our values and work with us to improve upon our strengths and be confident in addressing opportunities for improvement.

ABOUT US

WHR Allied Health was established in 2012 on the Surf Coast of Victoria to offer clients evidence-based client-centred Allied Health Services. We now provide supports across the Barwon and Albury/Wodonga regions.

Commitment to our team's professional development

One of our strengths is our focus on individual and team development. We exceed our AHPRA registration requirements by 4 to 5 times with most therapists completing in excess of 100 professional development hours per year.

If you're interested in seeing the areas our staff complete CPD please refer to *Resources* on our website.

CLIENT-CENTRED

Our team provides support at times and locations that best suit you. Visit us at one of our clinic spaces or we can visit you at school, work, home or anywhere else in the community that enables us to observe and assess your functional independence.

WHR Allied Health provides support to clients from 3 years old and up. Our experience is varied with a special interest in ASD, intellectual disability, equipment/assistive technology and home modifications.

We are proud to have attained the status of being assessed as a Gold Skilled Workplace by Mental Health First Aid Australia. 100% of our OTs and admin complete the 2-day MHFA training.
